

Report to Tree Huggers Bracelets

10,000.00 AUD Donated to RN for tree planting.

To our donors at Tree Huggers Bracelets

Thank you for your generation donation.

We actioned it across two sites between July and October in Northern New South Wales. This time split is due to the 4 month dry season we have in the Byron Shire, where tree planting pauses.

Those two sites will be reported on separately below.

Project Aim

ReForest Now provides the service of tree growth and planting as a not for profit partner for Tree Huggers.

We have utilised this support to regenerate what are called "Riparian zones", where we rebuild river and creek lines within former rainforest areas. These are considered the priority areas to restore in our industry.

As such both sites that were planted on your behalf focus on this activity.

Project Outcomes A and B

A) Site: 3A Lomandra Lane, Mullumbimby, NSW.

Coordinates: -28.550966° 153.486154°

Area restored : 0.46 hectare/s

Date: 20th July, 2020

Staff included: 7

Volunteers included: 8

Site Description: Former horse paddock that had been maintained for some time along a large tributary river that runs through Mullumbimby. The endangered Shrub Saropus is found here in limited habitat, which was expanded by this planting.

Maximo (CEO of RN) **left** – refer to the yellow arrow pointing right on the below image. This is the location and direction. Tashi (Nursery manager) **right** – refer to the pink arrow.

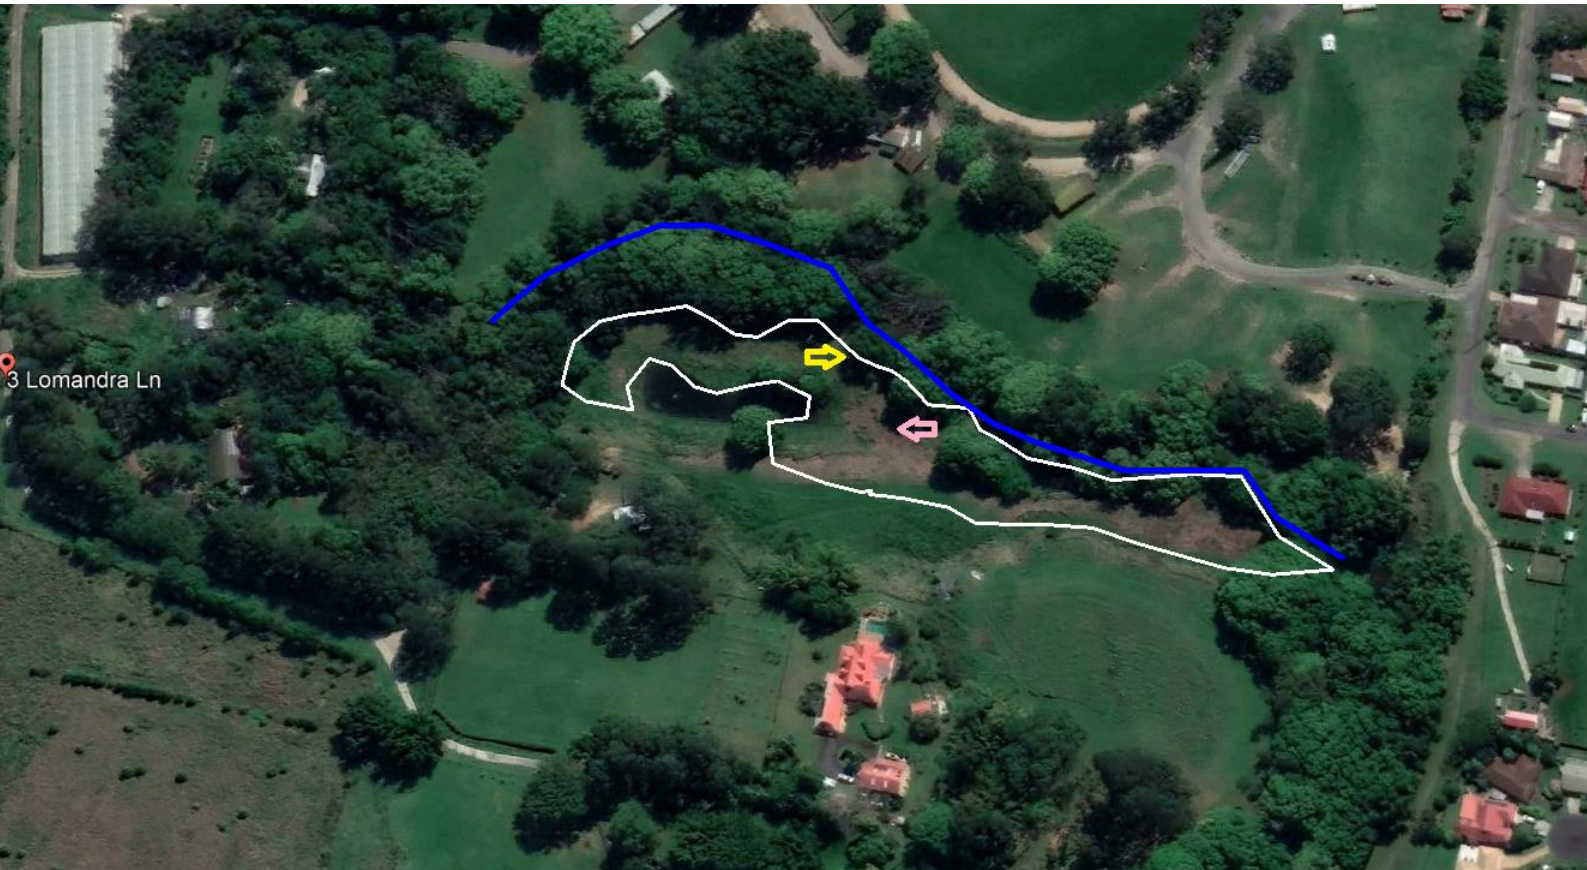

Figure 1 The project site at 3a Lomandra Lane. Note the river marked blue alongside your planting area.

B) Site: 29 Moycum Downs Drive, Mullumbimby, NSW

Coordinates: 28°35'14.45"S 153°29'44.71"E

Area restored : 0.51 hectare/s

Date: 1st October, 2020

Staff included: 7

Volunteers included: 0

Site Description: Not far from the first location, we have replanted several times on this site in Myocum downs.

We selected it because we were able to create a corridor between forest units and to recover creek lines that have been degraded by cattle. The owner has removed cattle and horses from the property to allow it to regenerate the significant creek that runs through it.

Team photo (from the left): Romey, Matt, Chloe, Maximo, Renata, Josh.

Figure 2 Site area at 29 Myocum downs drive. Note creek lines are not marked, but are visible wrapping around the planting site on three sides. Note forest bottom right, middle and top right - now joined

The total expenditure on this project is \$10,000.00 AUD.

Thank you for supporting us on our mission and creating a business model that allows you to engage with us.

You very much have our gratitude.

Yours Sincerely,
