Donations over \$2 are tax deductible.

We acknowledge the Aboriginal People of the Bundjalung Nation as the Traditional Custodians of the land we work on and recognise their continuing connection to land and waters of this beautiful region, and thank them for protecting these ecosystems since time immemorial.

Hello once again to our friends at Go-To.

This is our latest report for your donation of 4, 820 trees, which have all been planted at Clunes, NSW (as part of our project Banyula - place of many trees).

By far, this is our greatest project and involves many partners from around the globe. The site runs along a whopping 7 kilometres of the Wilsons River.

The planting already contains around 180 000 trees of a total 181 species of diverse rainforest trees, emergents, and shrubs.

Being able to deliver at this scale is a dream come true and we thank you for being a part of yet another special project.

Please enjoy your report.

You have been the most wonderful partner Go-To!

It can be very challenging for us to operate a growing charity, yet the scale and consistency with which your support is forthcoming is an absolute blessing.

I would very much enjoy a few people Go-To staff visit here to plant a few trees with us and more importantly, we'd like to show you your earliest forests.

There are different birds, butterflies, moths, insects. The forests are already coming to life and we didn't even expect that yet ourselves. Please visit.

If you have any further queries please contact me on
